

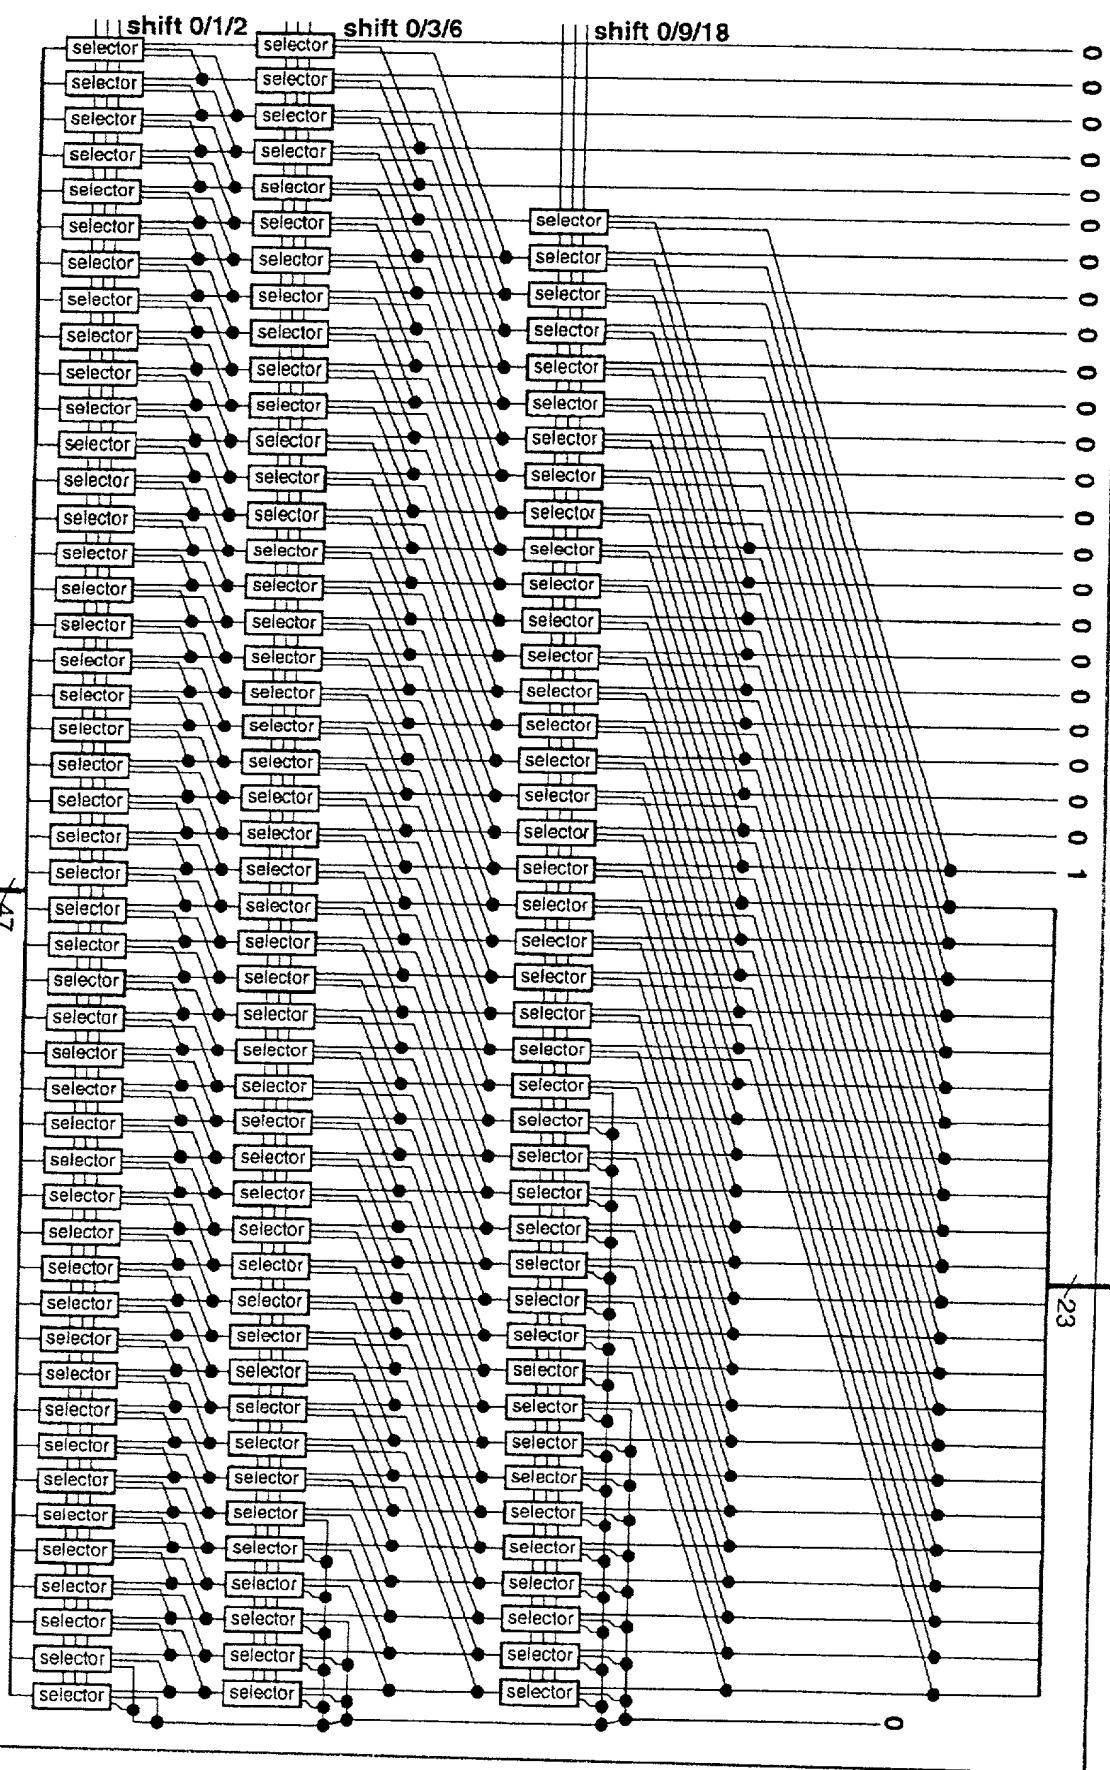

FIG. 4

THE HISTORY OF THE CHURCH OF JESUS CHRIST

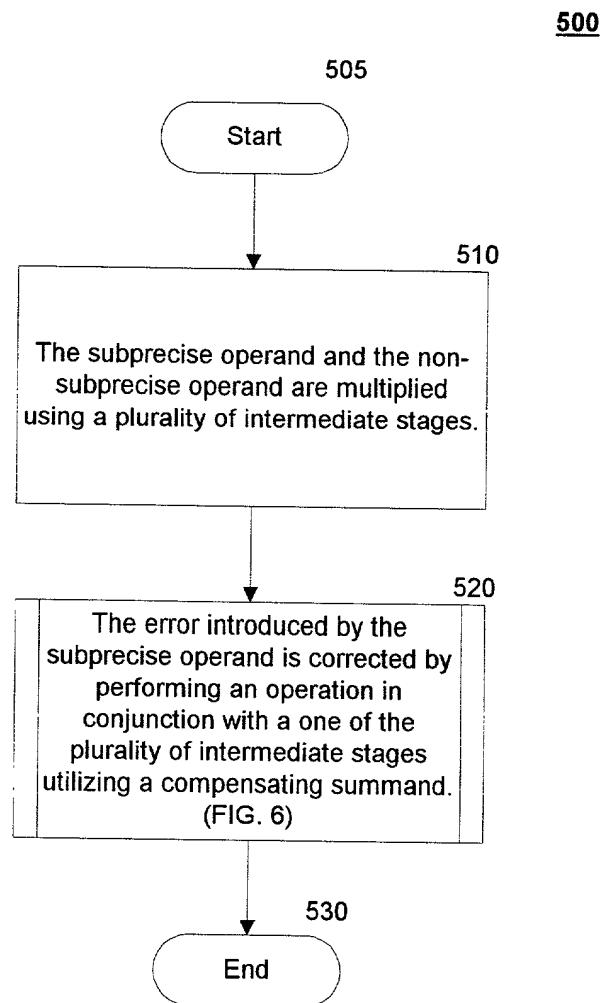

FIG. 5

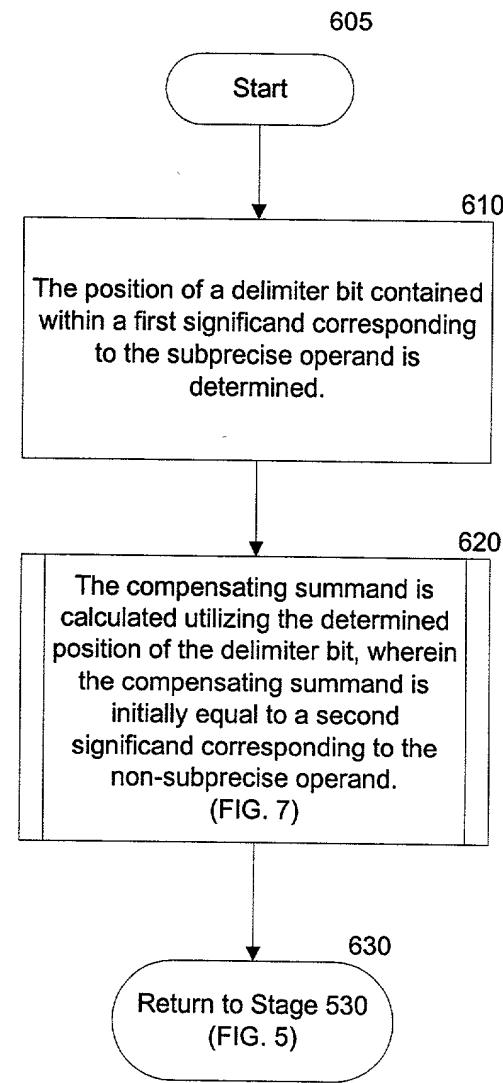

FIG. 6

620

705

Start

710

The compensating summand is shifted
so that the rightmost bit is aligned with
the determined delimiter bit position.

720

The compensating summand is
logically inverted.

730

A logical 1 is added to the
compensating summand.

740

Return to Stage 630
(FIG. 6)
